

Finding Natural Power

1 year of Spiritual and Practical Permaculture

Four seasons – four retreats

There is only One Life!

It is the same life force that flows through everything – ant, worm, apple, human – everything woven together in a beautiful web of interconnectedness. Nothing can manifest outside this web.

Permaculture builds on this fundamental understanding and a firm idea that it is possible to create living systems that are sustainably beneficial for both human beings, animals, plants and soil in one beautiful, fertile and totally interconnected process.

Every season offers very different, both delicate and powerful openings to experience and explore the One Life and how we can align ourselves with the flow of energy in the web of interconnectedness. Relearning to communicate with Nature and with our own True Nature is an integral part of this year. Every retreat is an organic process and will unfold as a perfect response to the season, the group and what moves in us.

We will be working in many different ways - with silent and guided meditations, contemplative or practical exercises inside or outside. Teachings, sharings, observations, silence, dance, energy work, body work etc. etc. You can expect periods of silence between the teaching sessions to allow each participant space to integrate and contemplate. We will use the gardens to meditate, marvel, connect and find inspiring examples of interconnectedness so that we can learn to manifest lush and creative lives for ourselves and everything we touch.

All the retreats will be held at Inspiratoriet on Samsø. Inspiratoriet has 1,3 hectares of garden with a 9 years old 3500 m2 Food Forest, vegetable garden, ornamental garden and nature right outside our doors, so we have ample possibilities to explore the interconnectedness in very practical ways – both in the inner and outer landscapes. More info and photos of gardens and facilities here: www.inspiratoriet.org or on Facebook – Inspiratoriet.

Cecil Rye Olsen will be teaching this course. She has a PDC (permaculture design certificate), has been working intensely with permaculture for the last 10 years, is a mad gardening enthusiast and teaches meditation and inner freedom 😊

The course will be in English if there are any foreign participants. Participants are always welcome to share/ask in Danish if that feels more comfortable – we will make the necessary translations both ways.

If there are no foreign participants, the course will be in Danish, of course.

Food is simple, vegan and as organic as possible.

You are invited to lend a helping hand with laying the tables, cooking, cleaning etc. as we are self catering.
